

# Getting Started

An information guide to better understand the origin of  
CANINE BOWEN

# In the beginning

**THERE WAS A MAN NAMED TOM BOWEN...**

It is he that is credited for this incredible neurological technique, often referred to as Bowen.

His intuitive skills, love for healing and openness to teach others, has led to thousands of people all over the world practicing Bowen: so that they too can heal those in need.

The Canine Bowen Institute holds the highest respect and gratitude for Mr. Tom Bowen.

THERE ARE MANY ARTICLES WRITTEN ABOUT TOM BOWEN, I INVITE YOU TO SEEK THEM  
OUT ON THE WEB.

**Canine Bowen is derived from this  
same incredible technique with an  
awe-inspiring twist,  
it's specifically designed for the  
Animal World!**

DEBI FAMELOS ~ INSTRUCTOR OF  
THE CANINE BOWEN INSTITUTE

Canine Bowen is a very gentle, light touch therapy that is NOT massage or acupuncture. It's a hands-on therapy that uses a specific set of gentle rolling "Moves" which target the connective tissue just below the surface level of the skin. These sequential Moves along with set wait times address the body as a whole, creating a re-set of all systems in the body structure.

Bowen addresses the nervous system rather than applying pressure to muscles. It's a direct brain-body connection helping the body to "let go" of a myriad of conditions!

Canine Bowen is specifically designed to address pain and mobility issues. But here's the side **BONUS**...it also addresses digestion, poor coat and skin health, disconnection from family and activities, low energy, and much more...

Bowen sees the body as a whole, without  
referral to a named disease.

It's not used as a diagnostic tool, nor does  
it treat just the named disease or  
condition.

We're treating the whole animal, at all  
times!

That's what makes Canine Bowen  
so effective.

# Canine Bowen Mega-Bonus

...it can be used on ALL animals!

**The Canine Bowen Institute is dedicated to sharing this incredible healing modality with the world, so that All animals have the opportunity to heal.**

**It's your time to heal the Animal World!**
